

Hi There

Social Greeting

Hi there, hi there, what's your name?
Hi there, hi there, what's your name?
We can sing and dance together
We can play with all our friends

David, David, that's my name
David, David, that's my name
We can sing and dance together
We can play with all our friends

This song is a clear invitation for children to sing a solo: "David, David that's my name". Everyone joins in with "We can sing..."

For smaller children that might need to build up to this they can progress through

- teacher leads everyone in singing a child's name, modifying the lyrics "David, David, that's your name"
- the child comes to the front, and everyone sings their name as above
- the child at the front sings their own name and the other children are reminded to allow them to sing on their own
